A compact Stage Custom kit using the 100% birch shells that have become synonymous with Yamaha drums. A shallow bass drum measuring 20 x 8 inches supports the bottom-end of the band and keeps the overall setup compact. The floor tom is also equipped with snares to allow for use in a variety of different kinds of music.

STAGE CUSTOM HIP

Hip is Where You Find It

20" x 8" Bass Drum

This kit combines the diameter used to achieve the rich bass tones of a regular set with a shallow body that allows the drummer to save space.

Compact Setting

Thanks to a bass drum that is thinner than usual, the Stage Custom Hip is compact enough to set up in even the smallest of venues.

Shell Package

	Bass Drum	Floor Tom	Tom Tom	Snare Drum	Tom Holder

Junior Kit hardware

Designed to be adjustable across a flexible range of heights, the Junior Kit's hardware has been simplified to provide just the functionality needed while retaining its existing solidity, resulting in a lightweight construction. One set fits in a single box, making it extremely portable.

Flexible kit height suitable for everyone from children to adults

The Junior Kit is comfortable for adults to play, while children can play it with ease when set to its lowest height. This flexible configuration makes the Junior Kit a joy to play for both adults and children across the globe, in any performance setting.

Small Kits with 2 toms

This kit features a two-tom layout, based on Manu Katche's desire to create a kit for use in educational settings where scores with two-tom notation are standard. Although a small-diameter kit, this configuration is useful for drummers all over the world, allowing them to play performances that conform to the common standard.

Sometimes great things come in small packages

Developed in collaboration with Manu Katche, the Junior Kit offers superior performance in a small diameter configuration that can be adjusted to a wide range of heights.
