*Cymbals and Snare Drum are not included.
*This drum features a coated head.
*Choose from three colors - RB, CR and NW.

Bop Kit

Small-diameter 3-piece kit features 100% birch shells which delivers the Stage Custom sound without compromise. This is ideal for jazz, light session work, performances in small venues, and all-around second-kit use.

Kendrick Scott

Shell

The shells use 100% birch, which has been responsible for the distinctive sound of Yamaha drums for many years, and offers short decay, quick attack, and tight sound with good separation. The coating specifications of the finish achieve the kind of beauty found in high-end drum kits.

All Birch 6ply

YESS Tom Mount

Attached at the drum's nodal point where shell vibration is least affected, Yamaha Enhanced Sustain System (YESS) minimizes lug to shell contact to increase resonance while maximizing dynamic range and sustain.

Separate Lug

Separate type lugs are designed with a small footprint that minimizes contact between the shell and lug to reduce dampening of shell vibration. An insertion plate set between metal parts and the shell isolates the metal parts from the wood further reducing dampening.
